ANNUAL ADMINISTRATION

AND

PROGRESS REPORT

ON THE

LUNATIC ASYLUMS IN THE BOMBAY PRESIDENCY

FOR THE YEAR 1892.

J.J. K-25

Bombay:
PRINTED AT THE GOVERNMENT CENTRAL PRESS.

1893.

No. S. B. 428 of 1893.

FROM

THE SURGEON-GENERAL WITH THE GOVERNMENT OF BOMBAY;

To

THE CHIEF SECRETARY TO GOVERNMENT,
General Department,
Bombay.

Bombay, 11th April 1893.

SIR,

I have the honour to submit for the information of Government my Administration Report on the Lunatic Asylums for 1892.

2. The usual repairs have been carried out during the year and the asylums have been kept in good order. At Ahmedabad the concrete drains for carrying off storm water were completed in March and acted efficiently during last rains. At Dhárwár the two additional night wards sanctioned by Government Resolution No. 451 C. W.—1581 of 19th September 1891, Public Works Department, have been completed, but are not yet occupied because the alterations to the old premises have not yet been finished. The floors of the new wards are of earth. Some impermeable material, such as asphalte, should be substituted, so that the wards can be washed. Two additional latrines in the male wards are required. The enclosure of the compound sanctioned by Government Resolution No. 466 A —1719 of 31st October 1892, Public Works Department, has not been begun. At Ratnágiri the conversion of the Deputy Superintendent's quarters into an additional barrack is being carried out by the Public Works Department. At Hyderabad the outer south-east wall is now being completed by the Public Works Department.

3. The water-supply is good at all the asylums and abundant for the use of the patients, but in some cases not sufficient for gardening purposes. At Colába, since the introduction of the Tánsa water, the supply has, unlike former years, been ample. At Poona there was a diminished supply from the irrigation canal for gardening purposes owing to scanty rainfall in 1891. At Dhárwár an allotment of Rs. 320 was sanctioned from my discretionary grant for two cisterns to store water for distribution to the cook-room, bathing platforms and for drinking purposes. At Ratnágiri the quantity supplied by the Municipality was 2,500 gallons per day as compared with 1,750 in the preceding year instead of 3,000, which ought to be supplied.

4. The new diet scales sanctioned in Government Resolution No. 2077, dated 10th June 1891, General Department, worked satisfactorily during the year.

5. The annual grants sanctioned for the amusements and brightening the lives of the inmates of the asylums have been carefully and judiciously expended by the Superintendents. The inmates appreciated the games, music, pictures and sweetmeats provided for them from these grants.

6. During the year the following works were sanctioned from my discretionary grant:—

Ratnágiri.—Rs. 175 for alterations in the central hall of Deputy Superintendent's quarters to convert it into sleeping barracks for male civil insanes.

Dhárwár.—Rs. 320 for water tanks as noted in paragraph 3 above.

Hyderabad.—Rs. 378 to complete the compound walls as noted in paragraph 2 above.

7. The statements attached to this report give statistical information regarding the lunatics, and I beg to make the following general summaries on these tables:—

Statement No. I shows that during the year under review the total population was 999, or 38 more than in the previous year. Of these, 817 were males and 182 females. There remained 573 males and 136 females on 31st December 1891: 233 males and 39 females were admitted and 11 males and 7 females re-admitted. 154 males and 20 females were discharged. Of the latter, 78 males and 13 females were cured and 76 males and 7 females were transferred to friends (66 males and 5 females improved and 10 males and 2 females not improved). 80 males and 32 females died as compared with 57 and 13 respectively in 1891. At the close of the year there remained 583 males and 130 females. The daily average strength was 602·8 males and 135·0 females—total 737·8 against 713·3 (580·3 males and 133·0 females) in the preceding year.

The percentages of cures and deaths to the daily average strength were:—

Cured	...	Males	12·9	Total	...12·3
		Females...	9·6		
Died	...	Males	13·3	Total	...15·2
		Females...	23·7		

The percentages to admissions were:—

Cured	...	Males	32·0	Total	...31·4
		Females...	28·3		
Died	...	Males	32·8	Total.	...38·6
		Females...	69·6		

Statement No. II gives details of criminal lunatics. On 1st January there remained 99 males and 7 females, while 20 males and 3 females were admitted and 1 male was re-admitted, making 120 males and 10 females—total 130, or 2 less than in 1891. 13 males and 1 female were discharged, transferred, &c.; 10 males and 1 female died, leaving 97 males and 8 females on 31st December 1892. The daily average strength of these insanes was 94·5 males and 7·9 females—total 102·4 as compared with 104·0 in the previous year.

Statement No. III gives the religion, sex and residence of the lunatics admitted during the year. The total Christian population numbered 55, of which 39 were Europeans, 7 Eurasians and 9 Native Christians. The majority of the Europeans were soldiers. The number of Hindus was 133, of Mussalmáns 61, of Pársis 22, and 19 of other castes.

Statement No. IV shows the previous occupation of the insanes admitted. Beggars gave, as usual, the largest number of admissions, *viz.* 48, soldiers numbered 27, labourers 24, tradesmen 23, servants 19, cultivators 14, sepoys 14 and clerks 12. 30 insanes had no occupation, and in 23 cases the occupation is not known.

Statement No. V gives the ages of the lunatics admitted according to sex. There were 10 insanes under the age of 20, 209 between 20 and 40, 61 between 40 and 60, and 10 upwards of 60.

Statement No. VI shows the various types of insanity. The following table gives the types of insanity and the result of the treatment of each form:—

	Remained.	Admitted.	Total.	Recovered.	Improved.	Died.
Mania	283	110	393	42	20	57
Melancholia	53	61	114	15	22	8
Dementia	159	32	191	8	11	28
Idiocy	32	3	35	...	...	1
Epileptic insanity	25	8	33	...	1	5
Charas smoking	6	2	8	1	...	...
Gánja smoking	73	37	110	13	4	7
Use of Bháng	30	7	37	2	2	3
Opium eating	6	1	7	...	...	...
Spirit drinking	35	21	56	8	10	3
Other types	7	8	15	2	1	...
Total ...	709	290	999	91	71	112

Statement No. VII exhibits the alleged causes of insanity among the inmates. Of a total of 999 insanes, the cause was ascertained in a little more than half the number (525 being known and 474 unknown causes). Of the known causes 440 are attributed to physical and 85 to moral causes. Of the former, the use of intoxicating drugs and abuse of spirits are alleged as the causes in 219 cases, previous attack in 35, epilepsy in 31, fever in 30, destitution in 22, masturbation in 12, syphilis in 7, injury to head, phthisis and child-birth in 5 each, sun-stroke in 4, sexual excess, old age, climate and paralysis in 3 each, and uterine disorder in 2. The disease was hereditary in 30 and congenital in 21 cases. Of the moral causes, grief contributes the largest number—52. Religion is the alleged cause in 10 cases, anger in 8, fear in 6, jealousy and loss of money in 3 each and anxiety, study and excessive joy in 1 each. The following are the causes, as far as is obtainable, leading to insanity confined for crimes of violence:—

Gánja smoking	... 12	Hereditary	... 2
Opium eating	... 1	Congenital	... 1
Charas smoking	... 1	Grief ...	... 2
Spirit drinking	... 3	Religion...	... 1
Fever ...	... 2	Jealousy	... 1
Puerperal fever	... 1	Anxiety...	... 1
Epilepsy	... 3	Loss of money	... 1
	Unknown ... 38		

Statement No. VIII is a return of the sick treated in the asylum hospitals for other diseases than insanity. On 1st January there remained 46 patients under treatment, 481 were admitted, giving a total of 527, or 36 more than in 1891 and 13 less than in 1890. Of these, 368 were discharged cured, 1 was transferred to the care of his relations, 1 was relieved and 112 died, leaving 45 under treatment at the close of the year. The daily average number of sick was 58·0 against 59·2 in the previous year. The chief causes of admissions were ague, dysentery, debility, diarrhœa, influenza, remittent fever, phthisis, pneumonia, bronchitis, epilepsy, paralysis and dropsy. Of the 112 deaths, 27 were due to dysentery, 21 to diarrhœa, 13 to phthisis, 11 to remittent fever, 7 to pneumonia, 6 to debility, 4 each to influenza, old age and epilepsy, 3 to cholera, 2 each to tubercle of lungs, dropsy, apoplexy, paralysis and fatty degeneration of heart, and 1 each to Bulbar paralysis and leucorrhœa.

The following table gives the ratio of deaths per mille to the average daily strength and the total population of each of the asylums as compared with that of the year 1891 :—

		Average daily strength.	Total population.	Number of deaths.	Ratio of deaths per mille to	
					Average daily strength.	Total population.
Colába	1891	280·7	423	30	106·9	70·9
	1892	300·0	443	49	163·3	110·6
Ratnágiri	1891	69·2	80	2	28·9	25·0
	1892	81·9	98	7	85·5	71·4
Poona	1891	97·0	138	14	144·3	101·4
	1892	94·0	133	19	202·1	142·9
Dhárwár	1891	38·0	42	1	26·3	23·8
	1892	35·5	42	2	56·3	47·6
Ahmedabad	1891	99·4	116	3	30·2	25·9
	1892	104·8	122	8	76·3	65·6
Sir Cowasji Jehángir, Hyderabad.	1891	129·0	162	20	155·0	123·4
	1892	121·6	161	27	222·0	167·7
Total	1891	713·3	961	70	98·1	72·8
	1892	737·8	999	112	151·8	112·1

From the above it will be seen that the death-rate was higher in all the asylums in the year under report than in the past year. At Colába the high death-rate was due to dysentery, diarrhœa and phthisis during the rains and the cold weather, and was attributed to heavy rainfall. At Poona the deaths were due chiefly to diarrhœa and debility among inmates admitted in a weak and debilitated condition. At Ahmedabad the fatal cases were chiefly among old weakly patients. The ages of the fatal cases ranged from 49 to 64 years, and 7 were inmates for periods ranging from 10 to 30 years. At Hyderabad the cause of the high mortality was attributed to the exceptional unhealthiness of last hot season, the principal feature of which was the unprecedentedly high inundation of the Indus, the level of which was 3 to 4 feet above that of the asylum ground. After the inundation subsided, malarial fever and pneumonia appeared in a virulent type both among the lunatics and the asylum establishment. At Ratnágiri the seven cases were forms of insanity which sooner or later tend to a fatal issue.

Statement No. IX is the cash account of the asylums for the year under review. The value of forms and stationery has been shown in this statement for the first time. The total cost was Rs. 1,31,399-11-11 as compared with Rs. 1,27,424-15-10 in the previous year. The expenditure on establishment was Rs. 44,073-4-4 against Rs. 42,234-3-6 in 1891, the increase being due to the increased rate of pay and allowances to the permanent incumbent of the Colába Asylum who rejoined at the beginning of the year, and to the Senior Apothecary on account of his promotion to the higher grade and to the Hospital Assistant attached to the Poona Asylum, as well as to the entertainment of an additional 2nd class female warder in the asylum at Ratnágiri. Diet cost Rs. 51,446-0-1, showing an increase of Rs. 5,584-13-4 over the previous year, due partly to the increased number of patients and partly to the increased contract rates on account of scarcity. There is a decrease of Rs. 874-6-10, Rs. 59-7-0 and Rs. 1,330-2-6 in the cost of clothing and bedding, medicines and contingencies respectively. The following is the abstract of cash account required by the Government of India :—

	Daily average strength in 1892.	Establishment.		Diet.		Clothing and Bedding.	
		Total cost.	Cost per head of average strength.	Total cost.	Cost per head of average strength.	Total cost.	Cost per head of average strength.

The receipts from paying patients amounted to Rs. 13,400-14-7, or Rs. 654-11-1 more than in 1891. The amount realized by the sale of manufactured articles and remitted to the Treasury was Rs. 1,594-14-5 against Rs. 1,919-12-2, and that on account of unserviceable articles was Rs. 39-15-3 against Rs. 57-1-6 in the previous year. Deducting the above receipts from the total of the amounts received from the treasury, adjusted to Government and value of articles received from the Manufacturing Department for the asylum purposes, the net cost to Government was Rs. 1,01,328-3-5 as compared with Rs. 97,978-13-6 in 1891. The cost per head was Rs. 137-5-5, or pies 3 less than in the preceding year. The following table shows comparatively the cost of each patient at each asylum for the past two years :—

	Daily average strength in 1892.	Net Cost.	Cost per head.	
			1892.	1891.
		Rs. a. p.	Rs. a. p.	Rs. a. p.
Colába	300·0	57,249 5 10	190 13 3	197 6 9

Poona	94·0	9,874 7 1	105 0 9	108 0 7
Dhárwár	35·5	4,171 3 2	117 8 0	120 2 7
Ahmedabad	104·8	10,203 13 11	97 5 10	88 10 5
Sir Cowasji Jehángir, Hyderabad...	121·6	10,810 3 4	88 14 5	77 3 8
Total ...	737·8	1,01,328 3 5	137 5 5	137 5 8

Statement No. X shows the sanctioned establishment as it stood on 31st December 1892. The monthly cost was Rs. 3,742-8-0 against Rs. 3,399-8-0 in 1891. The cause of increase is specified on page 4.

Statement No. XI gives receipts and expenditure on account of manufactures. The average number of lunatics employed was 292·3—244·1 males and 48·2 females against 294·6 in 1891. The total credits amounted to Rs. 3,570-14-9 and debits to Rs. 2,107-10-10, giving a profit of Rs. 1,463-3-11. The net profit was however Rs. 1,389-13-2 against Rs. 1,885-6-1 in 1891.

Statement No. XII gives the condition of the insanes as to caste, sex and marriage. This statement is summarized in the following tables :—

Table I.

Statement No. XIII gives particulars regarding criminal insanes. The nature of the crimes were theft 27, culpable homicide amounting to murder 50, culpable homicide not amounting to murder 4, suicide 2, voluntarily causing grievous hurt 14, house-breaking 6, mischief and assault 9 and miscellaneous offences 18.

18. The official visitors, with one exception, attended during the year regularly, and the additional three visitors for Dhárwár, sanctioned in Resolution No. 713, dated 3rd March 1892, allowed the quorum of three to be always present. At Colába, in the month of March, the Superintendent of the Common Jail was unable, from illness, to attend. No substitute was provided by him in accordance with Government Resolution No. 104, dated 12th January 1874, General Department.

19. I inspected the Hyderabad Lunatic Asylum and was satisfied with the general working of the institution. Surgeon Major-General Pinkerton inspected the Asylums at Colába, Poona and Ahmedabad, and was well pleased with the way in which all the Superintendents were performing their duties.

I have the honour to be,

Sir,

Your most obedient Servant,

P. S. TURNBULL, M.D.,

Surg. Major-Genl.,

Surgeon-General with the Government of Bombay.

Report on the Lunatic Asylums in the Bombay Presidency for the year 1892.

No. 2363.

GENERAL DEPARTMENT.

Bombay Castle, 7th July 1893.

Letter from the Surgeon-General with the Government of Bombay, No. S.B.—431, dated 15th April 1893—Submitting the Annual Report on Lunatic Asylums in the Bombay Presidency for the year 1892.

RESOLUTION.—The total population of the asylums during the year under review was 999, as compared with 961 in 1891. On 31st December 1892 the number of insanes under treatment was 713. The daily average number of inmates was 737·8 against 713·3 in the preceding year. The death-rate was higher in all the asylums than in the preceding year. The receipts from paying patients exceeded those of 1891 by Rs. 654-11-1. There was a decrease in the cost per head of each patient in all the asylums except those at Ahmedabad and Hyderabad. The net profit during the year on account of manufactures was Rs. 1,389-13-2 against Rs. 1,885-6-1 in 1891.

2. The Judicial Department should be requested to invite the attention of the Superintendent of the Common Jail to the penultimate paragraph of the report regarding the failure on the part of the Superintendent to visit the Lunatic Asylum, Colába, in March 1892 or to make arrangements with some other visitor to take his place as required by standing orders.

W. L. HARVEY,
Under Secretary to Government.

To

The Surgeon-General with the Government of Bombay,
The Sanitary Commissioner for the Government of Bombay,
The Commissioner in Sind,
The Commissioner, N. D.,
The Commissioner, C. D.,
The Commissioner, S. D.,
The Collectors of Ahmedabad, Poona, Dhárwár and Ratnágiri,
The Judicial Department of the Secretariat,
The Military Department of the Secretariat,
The Public Works Department of the Secretariat.
} With copies of the report.

The Editors' Table, Bombay,
The Editors' Table, Poona, *Care of* the City Magistrate, Poona,
The Editor of the *Dhárwár Vritt* (for his own use and for the use of the Editors of other Newspapers in Dhárwár),

The Government of India,
The Secretary of State for India.
} By letter.
